

## Conversation Lab

This course modality is intended for those who already know Spanish at an advanced/proficiency level, are able to speak fluently but want to keep their Spanish alive and be able to practice and polish their skills.

This course will be most helpful for those who already know:

- Knowledge of regular and irregular verbs
- How to use the different past tenses in Spanish
- How to use the Present Perfect and Past Perfect
- How to use future tenses
- How to use the subjunctive in all its forms
- How to make conditionals
- Have an extensive vocabulary
- Can talk about abstract ideas

In this modality we'll bring conversation topics –ethical, political, social, cultural, and we will debate them and give feedback on the way to tackle the fossilize-mistakes students may have. We'll focus on giving feedback and explain those problematic sentences or structures so you can polish your Spanish.
