

Specialized Spanish (Law, Medicine, Business)

This course modality is intended for those professionals who want to learn and/or are required to learn Spanish to exercise a job in law (immigration attorneys), medicine and business.

This modality is not yet available. However, we would like to know if there is enough demand in Santa Barbara to afford offering such courses.

Ideally, the student would already have a strong foundation of Spanish prior to enroll in the specialized courses. Yet, specialized courses could be taught to second language learners with no prior knowledge of Spanish.

Please let us know if you are interested in these types of course modality so we can -hopefully- start offering them asap.

We would appreciate if you could email us at alonso.siglo@gmail.com and let us know what modality interests you and what your Spanish level/knowledge is at the moment.
