

L2 Spanish / Spanish as a Second Language

This course modality is intended for those who are not of Hispanic heritage and didn't grow up in a Spanish-speaking household.

The course covers all Spanish levels, from beginner to advanced.

We offer group classes of a maximum of six people, semi-private classes of two people and one-on-one classes. However, since a language purpose is to communicate, we recommend attending our group classes.

Our classes goal is to make a Spanish-immersion environment from the time we are together and practice speaking as much as possible; individual exercises and grammar are taken home. Yet, that does not mean we won't explain grammar when necessary, but our focus is on communication. We prepare our classes around communicative and tasked-based activities.

More information on prices and time of classes can be found in our webpage under "fees" and "schedule" tabs.

Please do not hesitate to contact us if you have further questions about our courses.
